

The new acm - now in Europe!

The new acm -
the world's most innovative credit card
holder: compact, handy, secure.

Why you'll love the acm.

Accessories

acm is a real eyecatcher and a practical accessory at the same time. The most innovative credit card holder in the world is a compact organizer to keep your cards safe. The acm will become an indispensable companion in your daily life.

Promotional gift

The acm is a gift in the luxury class. Send your customers a little personal present they will enjoy using every day. On vacation, a business trip or for leisure - you are always there!

Communicator

Use the acm as a valuable building block in your integrated communication strategy. Make use of the versatile customization opportunities and create your tailor-made acm.

A revolutionary credit card holder

Patented technology

The patented technology makes the acm into an indispensable companion. Each card is dispensed by a separate button and a small flick of the finger. No more fumbling searches. The guided technology saves each card separately.

Exchangeable buttons

Each card is assignable to a separate icon. The icons can be sorted and exchanged separately. The acm comes with 18 of the most common icons (e.g. Master Card, Maestro, VISA, driver's license, etc.).

Removable money clip

The money clip keeps bank notes safe (recommended folded in three) or alternatively up to 10 business cards. The money clip is quick and easy to remove.

Custom-made - Now you can be with your customers 24 hours a day.

Advertising space

Make the acm to your personal communicator. Print or engrave your logo, slogan, or other announcement. There is a generous amount of space available for your personal message.

Customized icons

Do you want to offer your customers an extra special service? Then use your own icon on the acm and your customer card is immediately kept safe. A small detail - but enormously effective!

Special colors

Do you want the acm in your corporate colors? We will gladly advise you to design a high-quality, customized communicator. We are open to innovation and will gladly break new ground with our customers.
